Today, there are millions of cult members worldwide and experts estimate that there are around 5,000 different kinds of cultic groups in the US. Do you think you could never become one of them? Think again!

Brenda Lee, *Out of the Cocoon: A Young Woman’s Courageous Flight from the Grip of a Religious Cult*, knows first-hand how difficult it is to leave a cult and fit back into society. Her mother was a *Sunday school teacher* when she was recruited into a cult!

Cults come in all shapes and sizes. Most solicit a higher purpose, a sense of community and sound ideal. But they do not give you the fine print. In other words, destructive groups will use deception to recruit you and then use fear and mind control to keep you involved.

Brenda Lee’s 1-hour seminar will:

- Help you identify *any* toxic organization that has “cultic” elements
- Understand the eight points of mind control/thought reform
- Determine who is most at risk of joining a destructive group
- Provide resources to help you heal if you’ve been involved with one
- Offer handouts (a list of cult counselors, websites, DVDs and books)
- She’ll also share her remarkable story of how she lost her family almost 30 years ago and answer your questions.

This class is essential for anyone who has ever been involved with a co-dependent group as well as anyone who just wants to learn more—churches, colleges, high schools, activity groups, book clubs and more.

Contact Brenda Lee to attend her next **FREE** seminar and be sure to tell others about it. Don’t let anyone steal your family, finances, spirituality, or future someday. What you don’t know *can* hurt you. Education is the vaccination to cult involvement. Get vaccinated!
